

Synergy Labs Onboarding Guide

Step 1: Create Your Account

Go to app.synergylabs.io/signup and enter your work email address.

You must verify your email within 24 hours or the signup link expires.

Step 2: Connect a Data Source

From the Integrations tab, choose a connector such as PostgreSQL, Snowflake, or a REST API. The first sync

Step 3: Invite Your Team

Navigate to Settings > Members and enter teammate email addresses. Each invited member consumes one seat.

Step 4: Configure Alerts

Under Monitoring > Alerts, define a threshold rule (for example, error rate above 5 percent) and choose a delivery method.

Step 5: Go Live

Once your data source, team, and alerts are configured, click Activate Workspace on the dashboard. Activation is immediate.
